

Amazon Mansion

 **Maitama, Abuja**

Amidst the ever-populated gabled roofline of the Maitama District, arises a unique structure that will differentiate itself owing to its unique Form and Contemporary style. This project reflects the dominant relationship between Solid and Void, at the same time interacting with Light and Shadow.

The Luxury Mansions at Amazon Street is a project that originated from clean ideas, simple lines, and Purity of Form that would be sufficient enough to create an impact in its environment. The house is built as a compact volume of different heights, and will serve as an icon amidst a plethora of repetitive building styles.

The beginning condition for this project is born from hard work and numerous design iterations. The composition of the different spaces depends only on geometry and light.

 **6 BEDROOM**
 **7 BATH**
 **3 LIVING AREA**
