

# Bamboo House.

 Maitama, Abuja

This project took on a life of its own from the initial onset when the client requested that we capitalize on the outdoor experience for guests. Deliberating on numerous finishing materials, we opted to go for locally made and natural materials found within our region in the north. From handcrafted clay pots, raffia cane chairs and curtains, water fountain...to structural elements made of tree-trunks, Bamboo and the Octagon Bar really celebrates nature and the craftsmanship of local artisans and materials.

The lighting plan for this project was also another success, as it really added to the ambiance of this destination outdoor restaurant and bar. The sound of splashing water with a combination of ambient lighting gives the visitor a chance at tranquility within the ever-hectic and temperate workday in Abuja.

Bamboo house is quaint boutique hotel designed for the discerning nature loving traveler. Catch live sports action at the Octagon Bar, chill under the cabana while sipping on exotic cocktail and some mouthwatering food or relax and enjoy good music.

The nature-inspired Cabana is a hit amongst Abuja's unique customers and expatriate community. Enjoy everything nature has to offer under our Bamboo Cabana, while appreciating a well thought combination between nature and architecture.
