

The Mews On Agadez

 Maitama, Abuja

The Mews offers homebuyers a chance to own a distinct property along the Maitama skyline. Owing to the powerful clash between Contemporary and Traditional Styles, the project serves to grasp the attention of any on-looker.

The program of spaces is spread across three levels, including an Outdoor Roof Terrace. The foyer space introduces the visitor to a Living Room and Private Sitting Room; all with high ceilings. Efficiently arranged, all spaces are utilized by functions and programs leaving no chance for wasted space.

The façade is anchored by an Exterior Plastic Wood Composite cladding system, which gives the project a rich and contextual appeal. The void created above by the recessed Rooftop Terrace gives depth to perception and increases one's appreciation of the design intent.
