

Ojays Boutique Hotel

Kaura, Abuja

Characterized by straight line geometry, the ground floor creates a sense of direction and purpose. With ease one accesses the rooms at staggered entrances along a well-defined and centralized hallway which leads to an awe-inspiring double volume void at the heart of the building.

The double volume stairwell area creates an ambience to admire. The executive area located on the pent floor leaves guests wanting more as it provides an exclusive area for relaxation. A control room adequately designed to meet functionality, serves the whole building with electricity, entertainment and security controls.

The sloped roof and exposed balcony provide a sense of architectural creativity with a confined space. The building is an adequately lit edifice, which makes use of natural sunlight. The ceiling design with recessed rope light gives an illusion of natural lighting and high ceiling. Multicolored spotlights allow for change of mood in the rooms.

The hotel is luxurious and offers generous accommodation option in town with competitive pricing to attract the frequent business traveler. The location of the hotel ensures complete privacy and the facilities provided are able to satisfy the guest's needs.
