

Porto Novo Residence

Wuse 2, Abuja

The renovation of this project marked a turning point in the history of the built project. Once a conservative built home in the 80's, the house boasts of large open spaces, connection to the exterior, and the luxury associated with an easy transition between the indoor and outdoor spaces.

The design of this project originated from clean ideas, simple lines, and Purity of Form that would be sufficient enough to create an impact in its environment. The house is built as a compact volume, and will serve as an icon amidst a plethora of repetitive building styles.

All bedrooms have natural ventilation and lighting. The Ceiling design with accented recessed LED rope lights gives the illusion of natural lighting and high ceilings.

Amidst the forgotten residential back-streets of Wuse 2, arises a unique structure that will differentiate itself owing to its unique Form and Contemporary style. This project reflects the dominant relationship between Solid and Void, at the same time interacting with Light and Shadow.

 **4 BEDROOM**
 **4.5 BATH**
 **2 LIVING AREA**
 **1 KITCHEN**
 **2 DOMESTIC QUARTERS**
